

User Story

User Story Backlog:

View content:

As a **mobile user**, I want to be able to view the gifs in a grid like column. The navbar should be easier to view by directly looking at the nav-links, and a search form. I want to be able to view the navbar while I scroll through gifs.

Acceptance Criteria:

Given that I'm a mobile user, when I look at the website on my phone the images are stacked vertically with one row. The navbar is also stacked vertically and 'sticks' throughout the page as I scroll through.

ViewContent:

As a **desktop user**, I want to be able to view the gifs in a grid like column. The navbar should be easier to view by directly looking at the nav-links, and search form. I want to be able to view the navbar while I scroll through gifs.

Acceptance Criteria:

Given that I'm a desktop user, when I look at the website on my desktop the images are stacked horizontally with three rows. The navbar is also stacked horizontally (across the top of the webpage) and 'sticks' throughout the page as I scroll through.

To Do:

Search content:

As a **mobile user**, I want to type in a keyword and find gifs relevant to that keyword. I want to view multiple gifs per page.

Acceptance Criteria:

Given that I'm a mobile user, when I look for the search form it will be located in the sticky navbar on the top webpage. My keyword would be 'cats', after I type in cats I should find 30 gifs per page of cats as a result.

Search content:

As a **desktop user**, I want to type in a keyword and find gifs relevant to that keyword. I want to view multiple gifs per page.

Acceptance Criteria: Given that I'm a desktop user, when I look for the search form it will be located in the sticky navbar on the top webpage. My keyword would be 'cats', after I type in cats I should find 30 gifs per page of cats as a result.
